

Athlete Report
January 16, 2019

I (Cade) would first like to start out by mentioning that I have been officially appointed to a USA Swimming national committee and that committee being Sports Medicine & Science. This was my first choice for committees due to my deep interests in the field.

Now that the New Year has started and the holiday season has come to a close, Logan and I have revamped the pursuit of putting on the Safe Sport week we have been talking about for so long. We have returned to making that a priority for the entire Athlete Committee. We look forward to more communication with Sheri and eventually finalizing all the details that are required for a project like this.
