

SCS OP Risk Committee

Co Chairs: Stacy Smith & George Young

OP Risk Committee Report for June 19, 2019

Submitted by: Co Chair George Young

Starting in July of 2019, The OP Risk Committee will start a campaign on promoting awareness and the importance of an aquatic facilities emergence action plan (EAP). In the case of an emergency either a minor emergency or a life threatening injury, it is important that everyone know when and how to respond. A special posting will be released for the SCS Coaches and Team Reps in July. The OP Risk Committee will work with the Official's Chairs to also include a special Official version of the post.

Topics of discussions are:

- ROO education
- 5-10-year-old warm up safety
- Concussion education
- Supporting and education Meet Marshals

A closer look at the last discussion point: Supporting and Educating Meet Marshals— Several avenues will be used to help enhance Meet Marshal education. One of the enhancements will be a short video produced in-house by the SCS Op Risk Athletes Reps Daniela Acosta, Alexis Hass & Bridget Wong to help the Meet Marshals understand their assignment and duties of being a Meet Marshal. Other Athletes such as Adelynn Peterson or other fellow swimmers may join in on this in-house production.
