

Safe Sport Report Metro Report- Feb 2022

Congratulations to Trident and San Gabriel for getting their Safe Sport Club renewed!

Girls Speak Up- the athlete reps reported at Safe Sport, that they would like to come out to each individual pool, and present a program curriculum by Girls Speak Up (<https://www.girlsspeakup.org/>) which empowers female athletes to speak up about various forms of abuse.

Safe Sport is working on creating a more streamlined process for becoming a recognized program, so if you have already gone through the process, and have any helpful hints, or areas that were particularly painful, please let us know- and we can try and address it for future teams.

And! Please make sure you are mindful about transphobic language from staff and swimmers!
