Finance Chair Report

The General Chair and I are working diligently to put together a new finance committee. Once the committee is officially formed, we will be addressing our current investment portfolio and offering suggestions to the board to improve our long-term position on investments. I would like to ask any one in our swim community to email me any suggestions they may have in regard to how we can best service our community with the funds we have available. Please email toddconrad@gmail.com with any suggestions.
